

Referee Report for admission and/or scholarship

Applicant: complete section A, then email the form to your academic referee. Once you have received the completed form back from your referee, you are required to upload the report to your on-line application.

Note: For currently enrolled Monash HDR students, one of the reports must be obtained from your current main supervisor.

Section A: (To be completed by applicant)

Application ID No:

Surname of Applicant:

Given Names:

Monash Academic Unit: Degree:

Name of Referee:

Position Title:

Section B: Report of Referee

In what capacity do you know the applicant?

For the course in which you taught or supervised the applicant, what is the final grade/level of honours obtained by the applicant? If the applicant is currently completing the course, what overall grade/level of honours are they likely to obtain?

Are the results indicated above predicted or actual?

Predicted Actual

If applicable, what is the applicant's overall GPA?

What percentage of the degree course was the research/thesis component of the course?

If applicable, how was the research component assessed? (eg one or two examiners, internal or external examiners)

In relation to other PhD or masters by research candidates known to you, how would you rate the applicant's academic performance and research potential?

Excellent (top 5%) Very Good (top 10%) Good (top 25%) Fair (top 50%) Weak

Based on your knowledge of the applicant's academic performance and research potential, your support is:

Unreserved Strong Fairly Strong Moderate Nil

Please give your appraisal of the applicant in terms of the qualities listed below. Rate the applicant in comparison to other students you have supervised/taught.

| | Excellent | Very Good | Good | Fair | Weak | Unable to judge |
|--|-----------|-----------|------|------|------|-----------------|
| Ability to organise and express ideas | | | | | | |
| Critical and analytical ability | | | | | | |
| Initiative and motivation | | | | | | |
| Ability to plan and complete work | | | | | | |
| Ability to meet deadlines | | | | | | |
| Knowledge of the field or discipline | | | | | | |
| Imagination and creativity | | | | | | |
| Capacity to work without close supervision | | | | | | |
| Ability to write coherently in English | | | | | | |

Please add further comments which you think will assist in assessing the applicant for admission and/or a highly competitive research scholarship.

Signature:

Date:

Please return the completed form back to the applicant.

Thankyou for completing this referee's report: your assistance in the selection of Monash University research candidates for admission and/or scholarship is greatly appreciated. Please note that the academic unit may contact you for further information on the applicant if required.

TO WHOM IT MAY CONCERN

Ms Afsaneh Cooper was a part-time PhD student under my supervision at Murdoch University from 1990 to 1993. During that time she worked on the design of a flywheel storage system for wind turbines. She completed her design and was about to commence construction of a composite flywheel when her husband was transferred to the Pilbara and so she suspended her enrolment. Subsequently she started a family and withdrew from her PhD.

During the time that she worked for me I found that Ms Cooper was knowledgeable about her field of mechanical engineering and she worked diligently on the design of the flywheel storage system. Such systems are now in commercial production.

A handwritten signature in black ink, appearing to read 'P. Jennings'.

To whom it may concern;

Miss Afsaneh Motamedi had a project named "Model study of submerged tunnel" with me. She was working hard on her project. Her mark was 17.5 out of 20, which is equivalent to A.

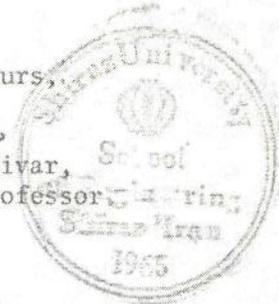

She is expecting to finish her thesis and receiving her M.Sc. degree pretty soon.

I'm wishing her a good luck in her future study and hoping to be able to continue her study.

Sincerely yours,

M.H. Kadiyar

Dr. J. Rastegar

Machine Design Group

Dear Sir .

I have known MS. Motamedi for over two years as one of her supervisors in a design groups at the I. R. O. S. T which has been engaged in developing a CAD system for designing involve gear and pinion pairs.

I found her to be intelligent , capable of doing independent work , and reasonably well organized . She has always been interested in continuing her education and I am sure that she could be successful in any related field that she chooses to do her graduate work.

With best regards

J. Rastegar (P. h. D)

To Whome It May Concern;

I know Miss Afsaneh Motamedi for nearly two years. She has been doing her M.Sc. program in the department of Mechanical Engineering where I am an assistant professor. She had a course of Advanced Numerical Methods with me. She passed it with the mark 16.1 out of 20. I have got the impression that she is a hard working and a very persuasive student, and a good researcher. As far as her personality is concerned, she is very nice and cooperative. She is fluent in English.

Afsaneh is supposed to finish her M.Sc. thesis very soon and to be graduated. She is telling me that she is very much interested to continue her studies specially in the field of Aeronautical Design and construction.

Yours,

G. Karami

To Whom It May Concern

This is to certify that Miss Afsaneh Moatamedi has been a graduate student in this Department. She has already completed the course work for her M.S. degree and is well towards the end of her thesis preparations. Her grade point average in the course work at graduate level is 14.2 out of 20 which is equivalent to about B in the American system of grading.

Afsaneh Moatamedi works very hard and has a very friendly personality. I, certainly, wish her good luck in her future work.

Sincerely yours

A. Sabzevari

To whom it may concern ;

I know Miss Afsaneh Motamedi since 1985 when she had just started M.SC in Mechanical Engineering department at this university.

She passed a course titled " Research Method " with mark 16. of 20. , and presented a paper titled "Techniques in efficient research" as her seminar in that class.

Afsaneh seems very intelligent, curious and hardworking . she is interested in Aeronautical research, well organized and serious in her responsibilities.

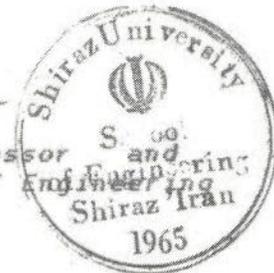

I recommend that she would be an excellent PHD research student in " Aeronautical Design and Construction " .

Miss Afsaneh Moetamedi

To Whom It May Concern

This is to certify that I know Miss Afsaneh Moetamedi (now Mrs. A. Cooper) for the last three years. She has been a graduate student at our department. Afsaneh entered here M.Sc course in February 1985 and finished her course in July 1988 with a G.P.A of 14.67 out of 20. She had a course of applied numerical methods with me and her grade was above the average. She finished her M.Sc thesis, regarded as a difficult job, a work titled:

Computation of Aerodynamic Coefficients of Flight Vehicles Using Emperical Rapid Methods

✓ As far as her personality is concerned she is very sincere and co-operative.

I recommed her in principal to be accepted at your institution. Should you need any furthur enquiries regarding Afsaneh, please don't hesitate to contact me.

TO WHOM IT MAY CONCERN

I have known Miss Afsaneh Motamedi for the past six years as my undergraduate student. She was my student in applied mathematics.

As I can recall she was among the best student in the class. She worked hard and obtained the highest grade in the class. Beside this she has the best academic records as a student of our university. She has completed several projects in different fields of Mechanical Engineering and she is able to create new ideas. I strongly, recommend her to be admitted in your graduate school.

Sincerely yours,

B. Mehri
Professor of Mathematics

No.
Date Aug. 22th, 1984

Dear Sir ,

Afsaneh Motamedi was my student in sharif Technical university ,
where I was Teaching a Tribology course .

Afsaneh is a very good student of one of Iran's best engineering
universities and has got a very good background of mathematics and as
most of her course subjects are in English , good knowledge of language.

Since she was working in a design office of " Iranian Research
Organization for Science & Technology " while studying , in past few
years , she got a good practical experience .

Knowing her as an intelligent , well educated and efficient person,
I am sure she would be a suitable student for any postgraduate course,
and will be happy to answer further inquiries about her .

yours truly,
Pirouz Deravi

TO WHOM IT MAY CONCERN

This is to confirm Mrs Afsaneh Cooper has been working at Apache Energy Limited on work experience, one day per week over the past 7 weeks. During her time with us she worked principally on an Excel spreadsheet for the Harriet Joint Venture Gas plant instrument index and she also worked on a line schedule (table) using Autocad.

Mrs Cooper completed everything asked of her, was willing, courteous and punctual.

To: 'Afsaneh Cooper'
Subject: Dear MS AFSANEH MOTAMEDI (COOPER)

Dear Afsaneh,

I am happy you have made it to Australia.

I am sorry not to have answered you yet, as I was working in Paris since summer and just came back home to Oslo.

Please write how are things with you?

I was in Teheran two years ago in October and participated in the 40th graduation of the university.

I know Dr Ardabili is in Australia, but could not see him in Teheran.

I trust soon will be your turn! according to graduation year.

By the way, I do not have the book we translated in Teheran together. That must have gone with the wind.

However, I have written a book in English which I have launched in June here in Oslo with a big success and plan to launch it in London in February/March 2013.

The book is about what happens during execution of Oil and Gas projects in Norway (including common projects with Australian Company WOODSIDE).

Do you see any potential for its distribution over there?

Regards,

Dr Reza Sarmast

Dear Dr Sarmast

This is Afsaneh Motamedi from Iran but I live in Perth Australia.

If you remember me since we met first at Sharif University of Technology [Aryamehr] Turbomachinery class of 1980. Let me know.
