- It is required to do **quality Assurance** on above information to see if they are authentic by:

[www.scamnet.wa.gov.au](http://www.scamnet.wa.gov.au)

After such quality Assurance, then trust can be created between the stakeholders listed in above worksheet.

- In above table, light blue coloured cells means **those in the rows were working as a team instructing me how to** meet Elizabeth Bradley with email: [Elizabethbradley519@gmail.com](mailto:Elizabethbradley519@gmail.com) , then Elizabeth forwarded me to David, then David first was on **gmail**, then on **viber**, later on **hangout** with different user name [surname was altered], then I could see his user name on hangouts was "Unknown". User Name: **Dukeofyorkno1** was first on **Instagram** then went on **WhatsApp [business]** and location showing Trafalgar square in London. Then moved to [Princeandrewyorkduck@gmail.com](mailto:Princeandrewyorkduck@gmail.com) on **hangout** with User Name of: **Prince Andrew York Prince**. In that procedure the team of 4 succeeded to mislead me by saying "Prince Andrew want to go on Holiday with me, so they would provide receipts in a pack of gifts and RF card on December 13, 2019" this forced me to pay the payment 2 of US\$500 to ANZ without waiting for receiving the receipt for my payment 1 which was only US\$1. But in each payment I paid AU\$10.50. All together I paid US\$515 including the bank fees. **Jason** at the international payment of ANZ Bank department asked me on 14/11/2019 by phone while I was in brank at Attwel, Cockburn Central, "What is your purpose for this US\$500 payment to **Anjum Bhojani Faulkner**? I answered at the phone, "We have an engineering project". I meant "River Turbine Project" which was part of my global pitch@palace which Also had linked it to Charles Darwin PhD course in renewable

energy and global education. As in a meeting with the Duke of York I was able to show him the PhD proposal and over 50 hidden web pages in my [www.ewindfly.net](http://www.ewindfly.net) website related to my years 2016-2019 engineering research work for the Canning River River Turbine. The engagement relationship on social media such as whatsapp and hangout with Prince Andrew was in second priority. However only after chatting with so many online virtual prince Andrews it was clear to know prince Andrew and to meet him in real a RF Membership card was minimum requirement.

- Duke of York official website on Instagram also was unattended 90% of the time during September 18- November 10, 2019. Once I chatted there with an admin on official Instagram **hrhthedukeofyork** a few persons with similar alias approached me on Instagram on the day I chatted and gave me their gmail to chat on hangout as Prince Andrew. such as gmail: [princedukeyoke332@gmail.com](mailto:princedukeyoke332@gmail.com) also this is another phone number given to me on Instagram by users over there as prince Adrew on November 1, 2019: +44 161 850 6541 which I called by phone but in response I received sms saying: "just sms me". On Twitter one of prince Andrew user names [I do not remember which one] wrote this mobile number for me twitted: : +44 161 850 6583 on September 30, 2019 to meet with me on WhatsApp with his mobile number with profile picture of Buckingham palace outside red carpet corridor. On WhatsApp he gave me his email: [princeandrewduke1ofyork@gmail.com](mailto:princeandrewduke1ofyork@gmail.com). Office of the duke of York received my long letter attached to an email in October about authenticity of these two data. They responded the MOB: +44 161 850 6583 is the true mobile of the duke of York. He offered me payment of AU\$3900 to Bank West for my Royal Family Membership and he agreed to meet me in Perth and china for my project: Smart Kitchen as part of my global Education in engineering to women engineer. I went to pay this amount to ANZ twice but ANZ considered his email having words: "honey", and "dear" on above and bottom of email which was listing to whom I should pay this amount, a Scam, also they said gmail should not be used for official correspondence by the Duke of York. He asked me to pay this amount by Bank West, in Bank West I had to open a new account and they had similar rules to ANZ. So I decided not to pay. I was able to hear the voice of a younger man of about 35 years old age, with British accent on WhatsApp [ MOB: +44 161 850 6583 ] He was pushing me to go to Bank West again. I stopped going to the bank as their instructions were convincing me. Also he could send me email through his office email. While I was chatting with this whatsapp user I asked him to send me an email about his feeling towards me as a prince Andrew with true mobile number approved by duke of York office. He replied. You can find my correspondence by email [elearning@ewindfly.net] with his gmail: [princeandrewduke1ofyork@gmail.com](mailto:princeandrewduke1ofyork@gmail.com) in files: **mail1.pdf**, **mail2.pdf**, **mail3.pdf** on web page which can be accessed by typing: **EBOT31314** in search box of [www.ewindfly.net](http://www.ewindfly.net) for the clear reasons I wrote above that twitter account I had was written for use to read all pitch@palace comments about what every company offers to pich@palace applicants. Twitter.com/pitchatpalace is the official account for pitch@palace found by @TheDukeOfYork. It was on that Twitter which this person sent me several messages first. The reason I wrote to the duke of York that I was engaged with the Duke of York was this account on **Twitter: Prince Andrew Albert** which mobile: +44 161 850 6583 and email: [princeandrewduke1ofyork@gmail.com](mailto:princeandrewduke1ofyork@gmail.com) was given to me one after each other on twitter and on WhatsApp to me and also the mobile was approved by the duke of York to be the true mobile of Prince Andrew. After I failed to pay to Bank West and also ANZ Manager was forcefully insisted the email for payment was scam for being gmail and including two intimate words in it, that WhatsApp became silent and never responded to my messages.
- The next profile on Instagram was with mobile : +44 7428 696 578 and I reported this profile to the duke of York palace.

In above Table in rows 13-14 you can see two cells with **dark blue highlight**. The same colour cells mean the two were working in a team. In

**Official\_chatting\_account\_\_** An admin with name: Rosemary Brenhov wrote on chat site that she is viewing my RE Membership card as a real card on

his desk sitting to be shipped to me with several gifts and receipt of my two payments to ANZ Bank but I should also pay for RF Permit for delivery, etc. on 29/11/2019. I read texts also from Prince Andrew there saying he wanted to chat with me on hangout. He wrote his email: [princeandrewhrhdukeofyork@gmail.com](mailto:princeandrewhrhdukeofyork@gmail.com) on the same chat site for me. His user name on **Hangout** was **Hrh Duke of York Prince Andrew** After discussing with him that RF Permit is no longer required as I have written to scamnet and they are looking into it and I have meeting with scamnet on Friday, this Prince Andrew and that official\_chatting\_account\_\_ site on Instagram admin agreed to send Prince Harry to Queen and I only pay US\$1000 for RF Permit card for delivery of my real RF Membership card but in 4 instalments. On Friday morning before I start coming to Scamnet this Prince Andrew: **Hrh Duke of York Prince Andrew** had agreed I do not pay any thing and What I paid to agent in USA was enough as my email was also sent to him and to **scamnet** and [doy.office@royal.uk](mailto:doy.office@royal.uk) but at scamnet on Friday meeting last week Paul told me that RF Membership is free and I should not pay anything to anyone. Therefore the two [princeandrewhrhdukeofyork@gmail.com](mailto:princeandrewhrhdukeofyork@gmail.com) and [Official\\_chatting\\_account\\_\\_](mailto:Official_chatting_account__) work together as a team. After returning from scamnet I wrote to [Official\\_chatting\\_account\\_\\_](mailto:Official_chatting_account__) that scamnet considers their site a scam as the official site for duke of York should have verification blue and white tick and their site does not have. Also I wrote RF Membership card should be free. Someone responded on that site the reason they charge that much [4 times US\$1000 for RF Permit is delivery cost and that in future there are other fees members should pay which all up becomes \$4000. Also they considered RF Membership is \$10,000. I wrote to them delivery of a card by express post registered person to person is AU\$400 posted between Australia to UK. They said I should not believe in what Scamnet says. I have not received any response from them.

- In above Table, rows 15-17 three cells in one column are **yellow highlighted**. On 7/12/2019 I wrote on official face book of the duke of York: **Hrthedukeofyork** my story of being scammed by team of 4, and Amanda Thirsk, PA of Prince Andrew wrote back on my sms of Face book and gave me Prince Andrew's private email address: [princeandrewedwardyork@gmail.com](mailto:princeandrewedwardyork@gmail.com) to write my scam story to him. She also said the duke of York official email address is not allowed to be given on face book to others. I wrote to Prince Andrew on this email and asked nine questions I had about my pitch@palace and community initiative three applications. He gave me his **WhatsApp mobile: +44 7723 540 872** on his WhatsApp all I understood was he thinks his social media profiles are cloned and compromised by scammers. He was interested to meet with me in no cost of RF Permit or RF Membership. He said pitch@palace or Royal Family is a foundation and is free to join. He asked me to meet with him in London for all matters I was discussing with him such as my River Turbine application for Canning River, scam chat logs on WhatsApp and Hangouts. He went to do further enquiry to find out how I can get my real Royal Family Membership card. So I can use that cards to meet with him in London for my River Turbine project which none of Australian Universities gave me any funding or at least a vacancy to re-enrol in my 3-15 months remainder of my PhD course [Feb 1990-Oct 1994] even my own Murdoch University first enrolled and completed 2 years and 9 months full time equivalent study done over 5 years. This course was a three years full time course which I withdrew to attend caesarean operation.
