Att: HRH Prince Andrew Mount-Batten Windsor

Dear Scamnet Customer Service, Royal Family (Attorney) Lawyer David Anderson

Hello to all [including the Private secretary of the Duke of York]

As you are aware, During Nov 10 - Nov 30 some correspondence has happened between the stakeholders of pitch@palace global, and Afsaneh Cooper. These stakeholders were all virtual with no opportunities given to me [Afsaneh Cooper] to know them in real. The only opportunity I was given to get in touch with stakeholders was email. Chat on social media and "phone call or video call" were also banned for me to test their reality [during the period before Nov 23, 2019].

In the circumstance of the project environment for three pitch applications, I lodged at pitch@palace for communication management, I recorded my conversation with the following stakeholders of my project: RHKT [River Turbine]:

1. The Duke of York Prince Andrew Mount-Batten Windsor
2. Elizabeth Bradley [Royal Family Agent in UK]
3. David Anderson [Royal Family Attorney in UK]
4. Rosemary Brenhov [New Admin on Instagram after Nov 23, 2019]

The details about contact information, position, full name, Social media environment from which my data was recorded, are in attached **File 1** as a worksheet to understand concisely. Also, some extracts of these conversations are recorded, which I attached too.

My questions from **Scamnet authorities, pitch@palace staff, HRH Prince Andrew, Elizabeth Bradley and David Anderson** are as follows, which **I need response to be able to take further commands from the Duke of York, Prince Andrew.**

Question 1. Are contact details of the stakeholders in attached worksheet [**File 1**] are real contact details or they are scam contact details?

Question 2. Are there any receipts for my two payments to Royal Family Agent in Georgia - USA during November 11 - Nov 14, 2019 at ANZ Bank, Atwell, WA, Australia? [see **File 8**]

Question 3. As attached Viber chat conversation [**File 5**] between me and David Anderson dictates, I should receive my real Royal Family Membership Card on about 13 December 2019 at the door of my house delivered to me by Royal Courier. This delivery does not require payment for the **Royal Family Permit card** which is understood from the chats with David Anderson is about future successful engagement of me and Prince Andrew. This permit is payment of US\$4000. Also see second negotiated price of US\$550 between me and HRH Prince Andrew [**File 9**]

I have also had a Hangout chatting with David Anderson which is attached [**File 6**]. In these chats at the end, David Anderson says:

As soon as you have received your card and other items you will be able to meet with the Prince face to face. We are aware that a lot of imposters claim to be the Prince and we have assigned so many Royal agents working towards putting a stop to it.

David in this hangout chat sent me a virtual RF Card signed by Queen Elizabeth II, which you see.

Still I do not know whether this RF card is real.

Please **Scamnet** and HRH **the Duke of York** including the private secretary of the Duke, clarify whether the stakeholders and people in attached documents [1-9] are real?

Today, I read on chatting site which is a new official Instagram site of The Duke of York, that **Rosemary Brenhov** or else from admin wrote to me that I won't receive any real RF Membership card, unless I pay for the RF Permit Card.

I attached texts among my chats with HRH Prince Andrew saying, 'He has agreed I only pay AU\$200 for my RFM card [File 2]. Also, he has agreed I only pay US\$550 for my RF Permit Card [File 9].

David Anderson required AU\$775=US\$500 + AU\$21 BANK fee.

So, David owes me AU\$575.

Prince Andrew argues that my offer for only **AU\$250 for RF Permit Card** means royal family are beggars [**File 9**]. However, Rosemary or admin wrote on chatting - Instagram site today that I can pay the US\$1000 RF Permit by loan. This means I am a hostile of my debt. I am on Centrelink pension as an engineering researcher for turbines and energy storage for them since Feb 2016 so far.

If we take this into account that **David Anderson owes me AU\$575**, as he did not consider that Prince Andrew is HRH means he has honor when he agreed with Royal Family Membership card payment of AU\$200 [File 2]. I wrote to David Anderson in my early emails, sent to him attached [**File 4**]. My email in that file 4 titled: **E3** says I should only pay AU\$200, but David never replied to that **E3**.

David in his **E2** email asked for US\$500, which is exchanged to AU\$775 incl. au\$21 Bank fees [**File 4**]. These two emails and attached chat file on WhatsApp between me and Prince Andrew [**File 2**] shows **David over charged me AU\$575**.

I am here to resolve the simple issues of **authenticity of virtual stakeholders and get refund for AU\$575 from David Anderson**. Attached file shows two payments of US\$1 AND US\$500 to a person in Georgia in USA to which David Anderson sent me email [**File 4**] for payment as that person is **Royal Family agent**.

Please respond to questions in this email. Also, my payment for the Royal Family Permit should consider HRH Prince Andrew has Honor [File 9] and is not US\$4000

or VIP=US\$1000. In the past three months The Duke of York in another WhatsApp and Hangout profile he has agreed to pay AU\$1200 towards the wind generator for my global research School project. This was his engagement gift 1 to me. I also reported the amount as part of my research project to two of my Research School associate professors one in Australia and one in overseas. That gift is also included in the Royal Family Permit, as I did not ask for more than that for a gift. Our wind generator project is to benefit shortage of flexible research school for Women engineers in PhD level. Considering that no university research school has provided me with any funding for supervision or equipment cost of my wind generator in Australia or in overseas, all I am prepared to pay for the Royal Family Permit card is US\$550. Then considering of refund of AU\$575 [discussed above], All I owe to David Anderson or to Royal Attorney is [AU\$825 - AU575 = AU\$250].

There are two intentions for me and HRH Prince Andrew to meet each other in real:

- a. Discussing my project River Turbine for Canning River in Perth.
- b. Responding to his demand to know each other for life as fiancé in real life.

Since I am an engineering researcher having three small businesses, which are very good for creating jobs in WA, specially for workers and technicians, WA government, who knows me very well at METRONET project [12/12/2018-Hyatts hotel seminar], should cooperate with me in task: **Kick-off project River Turbine for the Canning River.**

I hope we could manage installation of my River Turbine with Prince Andrew in a legitimate family-based environment first and then to the people of WA by seminars we would have together for public in this theme. I have discussed this email with the Prince at his hangout an hour ago, but I would also read this for him in audio file.

David's opinion that **only real meeting would make my stakeholders appear non virtual no scam type**, costs too much for a researcher like me, as RF Permit requires, I would put myself into debt. After I know these stake holders are real or at least some are real, then I would act as others do, at workplace.

Waiting for your response

Engineer Afsaneh Cooper
